

Development Economics I

Intergenerational Mobility Project

Fall 2022

- Please name your file like `lastname1_lastname2_PovertyProject.zip`.
- Email your work to ali.sani94@sharif.edu, mahlasabersh@yahoo.com and faezeheskandari3@gmail.com before the deadline.
- Provide the link to your maps in the report.
- Your documentation should be reproducible and contains your scripts, for instance, your do-files.
- Creative thoughts will be rewarded.

1 Mobility

1. Calculate income, occupational, and educational mobility trends using the Iranian public dataset. Feel free to use co-residents and by what method you calculate them.
2. Create an interactive map at a provincial level in order to visualize mobility.
3. Discuss different pitfalls of your estimation. Do you have any solution to solve them?

2 Impact Assessment

1. In this part, you must select one of the following topics and find the impact of a phenomenon on mobility. Please let us know which one you choose because the topics of any group should not be alike. The topics are as follows:

- (a) The impact of credit access on intergenerational mobility.
 - (b) The effect of 8 years war on intergenerational mobility.
 - (c) The influence of the 1979 revolution on intergenerational mobility.
 - (d) The effect of migration on intergenerational mobility.
 - (e) The effect of urbanization on intergenerational mobility.
2. Besides lectures, as helpful resources, you can use the ideas in [Ahsan and Chatterjee \(2017\)](#) and [Iversen et al. \(2021\)](#).
